Distribution Lab2 - DVA488

Alex, Marija and Niclas

February 2022

1   Distribution

Name	Description
Alex	Implemented two of the functions in the Osate project. The two functions were lane keep assistance(lane detection in the project) and collision avoidance)
Marija	Implemented three functions in the Osate project. I finished Car alarm, Parking assistance and Crash evaluation.
Niclas	Implemented three functions: adaptive cruise control, anti-lock braking, and power steering.
